DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 30 April 2001 has been entered.

Allowable Subject Matter

2. Claims 26-33 and 52-64 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: prior art does not anticipate, teach, or suggest a method for forming a low k inter-level dielectric layer substantially as claimed. For example, Mikata et al. (US 5,234,869) discloses a method for forming an inter-level dielectric layer comprising a compound having silicon bonded to both nitrogen and an organic material. However, Mikata et al. does not anticipate, teach, or suggest, after forming the dielectric layer, exposing the dielectric layer to a plasma comprising nitrogen effective to reduce the dielectric constant to below what is

was prior to the step of exposing. The prior art made of record in this action does not anticipate, teach, or suggest, either separately or in combination, exposing the dielectric layer to a plasma comprising nitrogen effective to reduce the dielectric constant to below what is was prior to the step of exposing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
